NUMBER 161.

A THOUSAND.

Awful Destruction Wrought By a Cyclone.

Terrific Hurricane Passes Through St. Louis.

Fearful Loss of Life and Property.

Nearly a Thousand People Killed.

The Casualties May Reach Even More When the Full Particulars Are Known.

Scarcely a Building in the City But What Was More or Less Damaged.

The Wind Reached a Velocity of Eighty Miles an Hour.

Seven Steamers Sunk and All on Board Drowned.

The Loss of Life in This Way Alone Will Reach Into the Hundreds.

A Number of Small Towns in the Vicinity of St. Louis Also Completely Wiped Out of Existence.

Communication Cut Off and There is No Telling the Extent of the Disaster.

ST. LOUIS, May 28.—Death and destruction reign supreme in St. Louis and vicinity, as a result of the most terrible storm that ever visited this section of the country, which struck this place yesterday evening. So widespread is the destruction in both St. Louis and East St. Louis that it is impossible to even estimate the amount of damage and loss of life. Buildings of every description are in ruins, and as a result hundreds of people are reported dead and injured, but until order is restored it will be impossible to make definite statement.

The cyclone broke at 15 minutes after 5 o'clock, coming directly from the west, destroying first in the city proper, then crossing the Mississippi to East St. Louis, and there, after raging for half an hour, disappearing in the direction of Alton.

There was little warning for the helpless people in the streets, the thousands on their way home from work, or the inmates of the great mercantile establishments of the city who had not yet left their posts of duty.

The wind had soon gained a velocity of 80 miles an hour, driving the rain before it and tearing loose signs, cornices, chimneys and everything in its way. Many buildings of every description

were demolished and others set on fire by lightning and crossed wires. The fire department responded to 14 alarms. The streets were full of people going home from work and a panic ensued as soon as the storm broke, men were picked up and hurled against the buildings, horses and carriages were sent flying here and there, and falling wires full of the deadly fluid added to the horror of the scene. Suddenly the wind veered around to the west and completed the destruction. It is asserted by some of those who have traversed the downtown part of the city that there are but few buildings in St. Louis that have not suffered in some way from the storm.

The city bears the appearance of having been shelled by an enemy. In some places structures have been entirely destroyed, while in others high, jagged walls stand, a constant menace to passersby.

There must be a great number of people imprisoned in the destroyed buildings, who can not be got out for hours, although thousands of citizens have offered their aid to the police department to help the work of rescue.

Every hospital in the city is filled with victims, and there is a lack of nurses, physicians and medicines, but as soon as the people get their wits about them again the work of alleviating the suffering of the injured will be proceeded with in a systematic manner.

One thing that hinders the work of taking out the dead and rescuing the injured is the fact that every electric light wire and telephone wire is down. This prevents communication between the various parts of the city, and the town being in absolute darkness all night the work of rescue went on with agonizing slowness.

To add to the dismal situation, the rain which fell shortly after the tornado passed, began again at 7:30 o'clock and came down in torrents all night.

It is impossible to get reports from the police stations, where many of the dead and injured have been taken, and consequently all statements in regard to the dead and wounded up to the present time are the merest conjectures, but there is no doubt that the loss of life is greater than anything the country has known since the disaster at Johnstown.

Seven steamers lying at wharves on this and East St. Louis side of the river have been sunk with all on board.

The magnificent steamer Grand Republic was sunk with all on board.

The steamer D. H. Pike, with 20 passengers on board, bound up the river for Peoria, was blown bottom side up.

The steamer Conger was blown nearly across the river and sunk at a point opposite Carondelet, 14 miles below.

The steamer Dauphin, a pleasure boat, containing 20 women passengers and a crew of six men on board, was blown against the middle pier of the Eads bridge and broken in two. In some miraculous manner, the women and two of the crew managed to cling to the stone work of the pier and were afterward rescued.

The steamer Libbie Conger of the Diamond Jo line with Captain Seaman, his wife and a crew of six men, was sunk in the middle of the river.

Apart from the number of lives lost here and on the east side of the river, the number drowned in the Mississippi will aggregate hundreds. Excursion steamers lying at the levee and those running up and down the river were sunk almost immediately, those on board having absolutely no opportunity to escape.

It is evident that the tornado pursued a track of many miles in length, as reports from various railroad stations show that nothing has been received from any point west of here as far as Moberly. Scattered bits of information show that between Moberly and this city various small towns have been wiped out and many persons killed in them.

The only telegraphic advice had here of the origin of the storm is from Milan, where late in the afternoon the dark, funnel-shaped cloud was seen, which descended a little later upon this city. At Milan, which is in Sullivan county, no damage was done, but between it and this city a dozen small towns were destroyed, and about which no information can be secured.

Venice and Namioki, villages just outside of St. Louis, were totally destroyed and a great loss of life is reported from them, but it will be some time before positive information as to the loss and death can be secured.

NO JURY YET SECURED

Only Eleven Men Agreed on to Try Alonzo Walling.

THESE SUBJECT TO CHALLENGE.

Nearly Every Talesman Seeks to Escape Jury Duty on Some Pretext or Other. Interest in the Case Seems to Be on the Rapid Decline—Only a Small Attendance in the Courtroom.

CINCINNATI, May 28.—The trial of Alonzo Walling for the murder of Pearl Bryan entered upon its second day in the Campbell county courthouse at Newport Wednesday morning. There was no overwhelming crowd, no excitement, and very little interest. Walling handcuffed to Sheriff Plummer was conducted from the jail to the courthouse without incident.

Not five persons were in the courthouse corridors when the prisoner passed through, and over half the seats in the courtroom were unoccupied.

Judge Helm at once ordered the sheriff to call the roll of the talesmen secured by Sheriff Plummer and his deputies Tuesday afternoon. Out of 47 talesmen summoned 47 answered to their names, all responding to the summons. There is a genuine and widespread revolt against serving on the jury. Eight of the talesmen were excused by Judge Helm on account of sickness in their families or personal ailments. These were the only excuses taken at all and nearly a score attempted to escape.

Walling was brought into court at 10 o'clock and took his usual seat beside Jailer Bitzer.

John Seibert and Charles Delmott were the first two talesmen called to fill the two vacancies.

John Seibert said in plain words that he thought Walling guilty and no amount of evidence could change his opinion. He was excused. Charles Delmott had made up his mind and said he could not render a fair and impartial verdict. He was also excused.

Ulrich Zeigler and Adam Aadrea were then called. Zeigler thought Walling as bad as Jackson and had made up his mind and nothing could change it. He was excused. Aadrea said he could understand the English language, but did not know what was meant when spoken to. He was very dense and was excused.

John Ernesthoff and M. R. Moran were then called. Ernesthoff when asked if he could render a fair and impartial verdict responded very emphatically "No!" He was so positive that he was then and there excused.

M. R. Moran, a grocer at Bellevue, said he had an opinion, but he thought he could render a fair and impartial verdict. Colonel Washington questioned him severely, but he took his seat, making the 11th man.

Christian Lang had made up his mind that Walling was guilty and was excused.

J. C. Erpenbeck had made up his mind and was excused.

Charles Prefer was opposed to capital punishment. He was excused.

Charles Rushman had made up his mind that Walling was guilty. He was excused.

Daniel Weber was opposed to capital punishment and went out smiling.

Fred Fulmer had made up his mind that Walling is guilty and could not render a fair verdict. He was excused.

Fred A. Deitz, a cigar packer of Dayton, said he had no opinion, although he had read the newspapers. He took his seat, filling the jury box.

Judge Helm then asked the commonwealth if they wished to use their two remaining challenges. Colonel Lockhart said the commonwealth was satisfied.

Colonel Washington for the defense then for the first time exercised his challenge privileges. He challenged Fred A. Deitz, John Lange and Benjamin Hehman. This left nine jurors accepted.

James A. Collis, J. F. Brufford and Fred Brumbach were then called to fill the vacancies.

James A. Collis said he had read little of the case and had no opinion at all. He thought he could render a fair verdict. He took his seat. Brufford and Brumbach said they had made up their minds and could not render a fair verdict, and they were excused.

John T. Hoffman and Frank J. Lotz were then called. Hoffman had an opinion that Walling was guilty and had made up his mind. He was excused. Lotz was opposed to capital punishment and got off on that score.

Joseph Koehler and Peter Boechmer were then called. Koehler had his mind made up and could not, he said, render a fair verdict. Boechmer said the same thing and got off also.

E. M. De Rose, a Cincinnati machinist living at Bellevue, said he had no particular opinion and was sure he could render a fair and impartial verdict. He kept his seat.

Joseph Geislin, John J. Devogo and Conrad Simmag were then called in turn and each in turn were strong in their statements that they had made up their minds and all were excused.

Charles Jungling was excused on the grounds of ill health.

H. F. Allen was then called, but he said he had made up his mind and was excused.

John Mauck when called said he had his mind made up that Walling was guilty. He was excused.

John F. Wall was then called, but he did not believe in capital punishment and was excused.

John Buckner said he had listened to the Jackson trial and thought both

Jackson and Walling guilty. He was excused.

Philip Bastian, when called, said point blank that he was sure Walling was guilty, and was therefore excused. Louis Yotze was excused on account of ignorance of the English language. Joseph Whalen had an opinion which could not be changed. He was excused.

Philip Blesch, an old man, was excused on account of his old age.

Frank Leisnering said the same thing and he followed his predecessor out of court.

This exhausted the venire. Out of the whole venire summoned Wednesday morning only five jurors were secured. There is yet one vacancy on the jury, and both the prosecution and defense have challenges reserved.

The venire having been exhausted, court adjourned for the day.

SIX PEOPLE SLAIN.

A California Household Wiped Out of Existence by a Human Fiend.

SAN JOSE, Cal., May 28.—Colonel R. P. McGlinchey and wife, their daughter, Mrs. James Dunham, James Wells, a son of Mrs. McGlinchey, a hired woman, Minnie Scherle, and a hired man, James Briscoe, were killed at Campbell by James Dunham, a son-in-law of Colonel McGlinchey, who made his escape.

About midnight a neighbor named Page heard the report of shots in the direction of the McGlinchey home. Almost immediately thereafter there came the sound of galloping hoofs on the country road. Hurriedly dressing, Page proceeded to the home of the McGlinchey and was horrified to find the body of Mrs. McGlinchey lying in an out-house in a pool of blood. Entering the house he found the bodies of James Wells, who had been shot; Mrs. McGlinchey and her daughter, who had been stabbed to death by the assassin, and the hired man and girl who had been hacked to death with a hatchet. The interior of the rooms where the bodies of the victims lay was bespattered with blood and there was every evidence to show that the dead had made a desperate struggle for their lives. Page, finding that all were beyond help, notified the authorities.

One of the officers who returned to the city from the scene said: "The scene at the McGlinchey home is one fearful almost beyond the powers of description. In the reception room was found the body of Wells. Evidently a terrible struggle had taken place between Wells and the assassin. Wells was shot two or three times. In the reception room adjoining no bodies were found, but the furniture was literally smashed into fragments showing that a fearful fight had taken place there. Adjoining the diningroom was the apartment occupied by Mrs. McGlinchey. There she was found literally slashed to pieces with a hatchet.

"Blood was everywhere and, as in the room of Wells, there was evidence of a terrible struggle having taken place between the poor woman and her fiendish son-in-law. The other victims were found in other apartments."

The last seen of Dunham he was riding rapidly toward San Jose on horseback. Family troubles are said to have caused the murder.

The only being in the house who escaped alive was a baby one month old, the child of Mrs. Dunham and the alleged murderer.

Colonel McGlinchey was one of California's commissioners to the world's fair at Chicago.

METHODIST CONSTITUTION.

Referred to a Commission to Report Four Years Hence.

CLEVELAND, May 28.—A surprise was sprung upon the M. E. general conference yesterday, when a motion was made and carried to refer the report of the committee on constitution to a commission to report four years hence. This report has been under discussion for three days and had aroused much bitterness. The reason for yesterday's action is believed to be a desire for a constitution which will depart more from old lines than did the report of the committee. There is a feeling that the laymen should be given more equal representation, and it is hoped that may be granted in the constitution which the commission will prepare.

The bishops have selected their places of residence as follows: Mullanbue, from Buffalo to Boston; Fowler, from Minneapolis to Buffalo; Fitzgerald, from New Orleans to St. Louis; Joyce, from Chattanooga to Minneapolis; Newman, from Omaha to San Francisco; Goodsell, from San Francisco to Chattanooga; McCabe, to Fort Worth, Tex.; Cranston, to Portland, Ore.; Foss remains in Philadelphia, Merrill in Chicago, Andrews in New York, Nide in Detroit, Waldren in Cincinnati, Warren in Denver, Hurst in Washington and Vincent in Topeka. New Orleans and Omaha, by the new arrangement, are left without bishops.

Bishop Newman has the choice of either San Francisco or Los Angeles and there will probably be a warm contest between these cities as to which shall be the place of episcopal residence. The bishop may, however, alternate between the two cities. Bishop McCabe has the choice of either New Orleans or Fort Worth, Tex. He has practically decided in favor of the latter on account of its better facilities for reaching the north, where he will have a considerable amount of work to do during the next two years in finishing uncompleted missionary business.

BATON ROUGE, La., May 28.—The vote for United States senator yesterday resulted as follows: Denegre, 65; Blanchard, 31; Price, 13; McEnery, 21; Blackman, 2; Hall, 1. Denegre failed of election by only two votes.

ONE HUNDRED LIVES

Victoria Street Car Disaster Growing in Extent.

SIXTY-TWO BODIES RECOVERED.

It is Believed That From Twenty-Five to Thirty More Bodies Are Still in the River—The Search For the Victims Being Kept Up, but It Will Be Several Days Before All Are Recovered.

VICTORIA, B. C., May 28.—The search for victims of Tuesday's streetcar horror is still being kept up and 62 bodies have been rescued from the water. Estimates made by people there place the number remaining in the water all the way from 75 to 100. It will probably be sometime before all are taken out and probably some will never be found.

While many Victorians were on the fatal car, the majority were visitors and the work of identification was consequently difficult. Fifty-seven bodies were identified. There are others whose names could not be ascertained and still more undoubtedly whose bodies have not yet been recovered from the water.

Twenty persons known to have been on the bridge at the time of the accident are missing and it is supposed they have perished. The car register shows 90 fares and it is probable that over 125 people were on board.

The people are very indignant over the accident, and same action will be taken right away. In every survey that has been made of the bridge in the last three years it has been condemned. The car that went down is an extremely large and heavy one and has not been allowed to run for a year, as it was considered too heavy for the bridge.

THE MINING SITUATION DISTURBED.

The Operators and Miners Fail to Agree on Machine Labor.

SULLIVAN, Ind., May 28.—Negotiations having failed between operators and miners relative to the price to be paid for machine work, the situation being now the same as on the 1st of May, at which time the operators fixed the price at 55 cents and the miners demanded 65 cents. A circular has been issued, summing up the situation as follows:

"The situation remains the same as the last 10 days. Alum Cave mines have been running and are still at a basis not above 55 cents. Old Pittsburg mines are not running. The Star City mines ran for a short time at a basis below 55 cents, but for some reason the men quit work. The mines at Dugger, which paid 60 cents from the 1st of May, are still running, although I understand the demand for coal is so light that they are running only part time. Enrich's mines on the Vandalia are running at 60 cents. These are all the mines that are running and is a true statement of the condition under which they are operating.

Yesterday there was trouble at Star City, the striking miners compelling a man who had started a machine, and was unwilling to join the union, to abandon his work and leave the district. Throughout the district the situation is admitted to be serious, and the sheriff of this county is taking precautions against trouble.

NO END IN VIEW.

Indiana Republican Central Committee Are in a Deadlock.

INDIANAPOLIS, May 28.—The Republican state central committee has got into a deadlock. All of the 13 members of the committee are here with the exception of Mr. Wood of the Twelfth district, who is represented by a proxy. The meeting was called three days ago by members of the committee who are opposed to Chairman Gowdy.

At 2 o'clock the committee and executive committee met together. Mr. Morris of Fort Wayne had the proxy of Committeeman Wood. As a test vote a motion was made to exclude the executive committee. The result was 6 to 7, the proxy voting against Gowdy. The point was raised as to the power of the proxy to vote. The result was 6 to 6—a tie. Chairman Gowdy cast the deciding vote and threw out the proxy. This caused a deadlock, and all kinds of parliamentary tactics have failed to break it.

The candidates were admitted one at a time to give their views as to the advisability of making a change of chairman. Nearly all refused to take any side. At 8 o'clock the committee adjourned. Mr. Wood can not get here for 30 hours and Gowdy's friends say that while he may have authorized his proxy to oppose Gowdy, he will refuse to do it in person. There is no telling when the deadlock will be broken.

Newspaper Man Missing.

ELMIRA, N. Y., May 28.—Robert Emmet Hall, a well known newspaper man and poet, has been missing since Friday. His friends believe that he has committed suicide, as he has been despondent and often spoke of drowning as the best means of ending life. All efforts of the police and his friends to locate him have been fruitless. He came here from Chicago two years ago.

G. A. R. Mourning For General Fairchild.

INDIANAPOLIS, May 28.—Commander-in-chief Walker of the G. A. R. has issued a general order with reference to the death of ex-Commander Lucius Fairchild of Wisconsin. The first paragraphs are eulogistic of the dead man. The last one contains an order for all officers to wear the prescribed badge of mourning for 30 days as a token of respect to his memory.

Let's kill this free silver agitation and give the country a rest. That's what is needed more than anything else to restore confidence and bring prosperity.

SOME of the leading Democrats fear the Chicago convention will split on the money question, and result in two Presidential tickets. What else can be expected the way they are fighting each other now?

DEMOCRATS continue to show such a disposition to split up and fight each other over every great and important question that they will probably wake up ere long and find themselves kicked out of the control of the administration of the Government. They will then have plenty of time to kick and claw and scratch each other.

The free silverites put up a cry for more money. They demand plenty of it. If they will read Secretary Carlisle's late speech it may dawn upon their befuddled minds that free coinage of silver will not give them what they want. The Secretary shows that if all the mints of the country were run to their full capacity, it would take them fifteen years to turn out enough cheap dollars to take the place of the gold that would be withdrawn from circulation.

THE REAL QUESTION.

Shall We Have Silver Monometalism?
Extract From Secretary Carlisle's
Chicago Speech.

We have now about \$620,000,000 in gold, and \$413,000,000 in full legal-tender silver, besides \$78,216,977 in subsidiary silver coins, which are legal tender in payments not exceeding \$10, and the real question for the people to decide is whether they will continue to use the coins of both metals or adopt a monetary system which always has and always will drive one of them out of the country. I am not here, therefore, to advocate the exclusive use of gold coin as money, or to oppose a conservative and safe use of silver coin as money along with gold and at a parity with gold; but I am here to insist that we shall not abandon the present legal standard of value, expel all the gold from the country and adopt silver monometalism, with free coinage of a nominal dollar worth intrinsically only 51 or 52 cents. I am here to insist that the mints of the United States, which were constructed and are maintained and operated at the expense of all the people, shall not be used for the exclusive benefit of the owners of silver bullion under a hoarding them the right to have 51 or 52 cents' worth of their silver coined free of charge and set up as a dollar, and compelling you and all others to receive it from them as a dollar.

All the mints of the United States, operated to their full capacity and doing no other work, could not coin into standard silver dollars two-thirds of the annual production of silver in our own country; but, notwithstanding this, it is seriously proposed to offer free coinage to all the silver in the world at a legal valuation almost double its commercial value in the markets of the foreign countries where it is produced. The annual production of silver in the world is about \$246,000,000 at our coinage rate and the annual capacity of our mints to coin standard silver dollars is only about \$40,000,000. Last year we coined \$43,933,475 in gold and \$9,069,480 in silver; so that if our mints were devoted exclusively to the free coinage of standard silver dollars the addition to our stock of metallic money would be about \$13,000,000 less every year than it is now, and it would not be good money after it was coined. More than fifteen years would elapse before we could at this rate coin enough depreciated silver dollars to supply the place of the gold dollars expelled from the country, and, in the meantime, a complete revolution would have to be effected in our commercial relations with other nations and in all our domestic business affairs, including a readjustment of the wages of labor, the prices of commodities, the rates of municipal, State and Federal taxation, charges for transportation, and every other matter involving the use of money or credit. We should descend by a single step from the highest standard of value to silver monometalism, with a contracted and at the same time depreciated currency, a financial experiment which has no precedent in the monetary history of the world.

A financial report of the St. Louis Turnpike Company has been filed in the County Court.

WEEKLY CROP REPORT.

What the Weather Bureau Says of
the Outlook in Kentucky.

[For the week ending May 25.]

The weather conditions of the past week were highly favorable to all agricultural interests. For the first time since early in April general rains fell throughout the State. They came mainly in the form of local thunder storms, but so frequent were they that nearly every portion of the State was covered, and there is hardly a report received this week which dissents from the generally expressed opinion that the drought has been effectually broken. There was quite a lack of uniformity in the amounts of precipitation received by different portions of the State. The western counties which last week were favored with good rains, again reported even greater amounts, which in many places exceeded three inches. The average amount for the central, eastern and northern counties was about one and one-half inches, though many localities report much greater amounts. The temperature, though lower than that of last week, ranged from two to five degrees in excess of the normal daily. The amount of sunshine received varied in different parts of the State, but the average was probably slightly less than the normal. The general effect of the conditions described was favorable to all crops, and the tone of reports received this week is much more encouraging than that of those for several weeks past.

Western Kentucky.—This section of the State was visited by very heavy rains during the week. In many cases they were sufficient in amount to flood the lowlands, and considerable damage from washing out of crops is reported in Union, Marshall, Muhlenburg and Hart counties. So heavy was the downpour that even crops on the uplands were damaged to a considerable extent by being beaten down and washed out. These injurious influences were, however, confined to comparatively small areas, and the general state of crops is much more encouraging than for some time past. Wheat has improved somewhat and in a few localities is reported to be fine, but as a rule, it is heading out very short, and the general opinion is that the rain came too late to fully revive it. Corn is in the best possible condition and growing very rapidly. Some fields are becoming weedy for the reason that the heavy rains have rendered the soil too wet to be worked.

The week was a splendid season for setting tobacco, and the majority of counties report the work fairly advanced toward completion. No scarcity of plants is reported. Oats, grasses and clover have improved, though their condition is not yet all that could be desired. Gardens look well, but complaint is made that potato bugs are much more numerous than usual. Fruits, especially peaches, promise well. But little complaint of cut worms is made this week.

Central Kentucky.—Reports from this section indicate a greatly improved condition of crops generally. The rain came too late, however, to fully restore wheat and oats. The former is reported to be inferior except in a few localities, and is heading out very short. Oats, while somewhat improved, do not, as a rule, promise well. Meadows and pastures look much better, and with a continuance of favorable weather, will soon attain their normal condition. Some spring planted clover which survived the drought is now doing very well. The condition of corn is generally splendid and much of it has been worked. The fields are very free of weeds and grass as a rule. Hemp has shown some improvement, but the fields are generally spotted and uneven. Tobacco setting has made marked progress during the week and in several counties the work is almost completed. Much transplanting was done by machine this year, and the results are reported to be very satisfactory. There is much scarcity of plants complained of in the central and northern counties of this section. Apples will be short, but peaches and other fruits promise well. Cherries are ripe in some sections. Gardens have improved since the rains, but are not yet in the best condition.

Eastern Kentucky.—While the rainfall was less in this section, than in other parts of the State, the amount was sufficient to allay the effects of the drought and to greatly improve the general outlook for crops. Wheat though somewhat improved is still inferior and the prospect for a crop is very gloomy. Oats will not fully recover from the effects of the protracted drought. Meadows and pastures look better, but are still very short. Corn is in fine condition and but very little planting remains to be done. The work of setting tobacco made good progress during the week. The plants in many sections are reported to be small and quite scarce. Gardens are greatly improved and will soon be in fine condition if favorable weather continues. Fruits promise well, except apples, which are reported to be short. More rain would improve the general outlook for this section.

Spring Medicine

Your blood in Spring is almost certain to be full of impurities—the accumulation of the winter months. Bad ventilation of sleeping rooms, impure air in dwellings, factories and shops, over-eating, heavy, improper foods, failure of the kidneys and liver properly to do extra work thus thrust upon them, are the prime causes of this condition. It is of the utmost importance that you

Purify Your Blood

Now, as when warmer weather comes and the tonic effect of cold bracing air is gone, your weak, thin, impure blood will not furnish necessary strength. That tired feeling, loss of appetite, will open the way for serious disease, ruined health, or breaking out of humors and impurities. To make pure, rich, red blood Hood's Sarsaparilla stands unequalled. Thousands testify to its merits. Millions take it as their Spring Medicine. Get Hood's, because

KENTUCKY BANKS.

They May be Made to Pay City,
County and State Taxes.

The question as to whether the banks in this State can be made to pay county and city taxes like any other property holder was argued before the Court of Appeals again yesterday.

Since the court passed on the question last year the personnel of the court has been greatly changed. The court then stood 4 to 3 in favor of sustaining the Hewitt law, which allows the banks to pay to the State 75 cents on the \$100 in lieu of all other taxes. Of the four Judges that concurred in that opinion, Judge Grace has died and Judge Eastin's term expired.

It is not known how their successors will stand on the question, but if one of them votes with Judges Lewis, Guffy and Paynter, who dissented last year, the ruling of the court will be changed, and the banks will have to pay city, county and State taxes, like any other citizen.

The Frankfort City Council is also preparing to test the question as to its right to make the banks pay a city license, the same as merchants, brokers and other business men.

PLAY BALL.

That's What the New Maysville Team Will Do This Afternoon—Opening Game.

At 3 o'clock this afternoon, the weather permitting, the initial game of the season at the local base ball park will be called. The new Maysville team will have for their opponents the Pennsylvanias, a strong nine from the Queen City. The visitors have an unbroken record of victories, and the Maysvilles will try their best to down them. Too much should not be expected of the locals, as they have had very little practice in team work. However, the boys are most all in good trim, and are confident of winning. Hilberger and Kellner will be in the points for Maysville. Hilberger is one of the most promising young twirlers in the business, and the team that downs him has to be a good one. Kellner ranks high as a catcher.

The locals will line up as follows:

Pitcher.....Hilberger
Catcher.....Kellner
First base.....Lucas
Second base.....Gray
Short.....Lauterbach
Third base.....Van Winkle
Left field.....Cox
Center field.....Wadsworth
Right field.....Curle

Curle arrived last night.

Admission 25 cents; ladies 15 cents.

The Pennsas bring pitchers Slade, Lever and Whalen.

A big crowd is expected on Decoration Day, (Saturday), that being a national holiday.

The teams play to-day, to-morrow and Saturday, and then the Maysvilles go to Knoxville.

Maysville people should turn out and give the team a big send-off. The boys will feel more like playing if encouraged by a big crowd.

Sammy Lever seems to be very much like a flea. When you think you've got him, you haven't. Maybe the locals won't do their level best to dose him out a heavy defeat. He has treated them shabbily. They had his promise to come here Monday and play with the team, but he went back on his word, and is coming up to go in against them.

River News.

The Courier's crew are in charge of the big Bostona now in the Maysville trade.

The new Island Queen will make her initial trip in the Coney Island excursion trade Decoration Day.

The Hudson has been allowed a capacity of 1,200 in the excursion trade by the Government Inspectors.

Patrick Carberry, one of the oldest and best-known stewards on the river, died at his home in Covington this week. His last berth was on the Bonanza in the Pomeroy trade.

Commodore Laidley has purchased the steamer Dick Brown for the Madison and Louisville trade from Captain M. Brown. The boat has been under charter for some time to the Mail Line, and they had the privilege of buying her any time before July 12th. The Dick Brown is well known on the river, especially in the trade she is about to enter, as one of the fastest of stern-wheel boats.

Decoration Day at the Postoffice.

Decoration Day (Saturday) being a National holiday, the general delivery at the postoffice will be closed at 11 a. m.

There will be one delivery by the carriers, at 7 a. m. The carriers will make two collections, one at 7 a. m. and the other at 4:30 p. m.

The Lightning's Freak.

Robert Dow, Jr., of Paris, had his umbrella struck by lightning last night. He was uninjured, but his umbrella fared badly.

A woman's headaches may come from several causes. She may have a headache arising from nervousness, or from digestive disturbances. Nine cases in ten, her headaches come from disorders peculiar to her sex. It may show itself in the symptoms which are characteristic of a dozen disorders. Thousands of times women have been treated for the wrong disorders. Dr. Pierce's Favorite Prescription was compounded for the sole purpose of relieving womankind of these ills and pains. Thousands of women have testified that after taking treatment from several physicians without benefit, the "Favorite Prescription" cured them completely and quickly. It has been used for over thirty years, and has an unbroken record of success.

The woman who hesitates is invited to send 21 one-cent stamps to cover only the cost of mailing a copy of Doctor Pierce's Common Sense Medical Adviser, which contains plain, clear information about all of the organs of the human body and their functions.

THE Portsmouth Blade says the unfortunate man who was killed by a C. and O. train Tuesday, mention of which was made yesterday, has been identified. He was Gus Johnson, a resident of Gray's Branch, Greenup County.

In the list of allowances made by the Fiscal Court, recently published, was an item of \$6 allowed 'Squire Hook for "room rent for election." The allowance, we are informed, was for rent of room for holding court and not for "room rent for elections." Each Justice, except the two in Maysville, receives \$12 a year regularly for court room rent, and the recent allowance was for six months.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed in the Spring, when the languid exhausted, feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malaria poison. Headache, indigestion, Constipation, Dizziness, yield to Electric Bitters. Only fifty cents per bottle at J. James Wood's drug store.

MARIE DECCA.

The Song Bird Steals a March on Her Friends—Weds a Harrisburg Banker.

[Cincinnati Enquirer, May 27th.]

"Miss Marie Decca, 214; Mr. Charles Smith, 215; H'r's'g, Pa." are two registers at the Burnet House and thereby hangs a tale. Miss Marie Decca, the famous prima donna, was married four weeks ago to Mr. Charles Smith, of Harrisburg, Penn., and they are traveling incog. so far as the publicity of the marriage goes. Miss Decca's own family, much less the public and newspapers, know nothing of her having a brand-new husband and on a honeymoon trip.

Miss Decca was over three years in getting a divorce from her former husband because of her inability to have papers served upon him, but at last she succeeded despite his efforts to the contrary, she says, and was secretly married in a few days thereafter.

"I married so soon after getting my divorce," she said, "that I felt like keeping it quiet, although I had not been that man's wife for four years except on paper. I am happy and don't mind telling you about it since you know it already. I am on my way to my girlhood home, Germantown, Mason County, Ky., to sing to those good folks for the first time. I have a sentiment to go back there and shall sing to them with all my heart. Then we return here for a day or two and I go East to sing for the season at the Mother Chautauqua. I still have my ideal retreat on the Susquehanna river, near Harrisburg."

Mr. Smith is a modest and very youthful looking blonde bank official of Harrisburg, who is very proud to have captured the accomplished lady.

BATTLE AX

BIG AND GOOD.

Battle Ax
PLUG

Sometimes quality is sacrificed in the effort to give big quantity for little money. No doubt about that. But once in a while it isn't. For instance, there's "BATTLE AX." The piece is bigger than you ever saw before for 5 cents. And the quality is, as many a man has said, "mighty good." There's no guess work in this statement. It is just a plain fact. You can prove it by investing 5 cents in "BATTLE AX."

PROHIBITIONISTS.

Silver Men Win the First Fight in the National Convention.

PITTSBURG, May 28.—Uproarious and caustic in the extreme was the first day's session of the seventh national prohibition convention. At least one half the time the delegates were in a bedlam of confusion and on several occasions the presiding officer had to call upon the band to play in order to quiet the disorder.

It was a fight between the broad gauge, or free silver, faction and the single issue, or gold standard, delegates from the east. The fight was precipitated a few moments after the convention was called to order and at both the morning and afternoon sessions things in general ran riot. The free silver faction carried the day, however, and at 6 o'clock in the evening elected C. W. Stewart of Illinois permanent chairman over A. A. Stevens of Pennsylvania, who was backed by the gold standard delegates.

The convention was held in music hall at the exposition building and there were over 5,000 spectators in attendance. It was not as large a crowd as the leaders had expected, but there were enough people to fill the big hall, and what they lacked in numbers they made up in enthusiasm.

The fight will now be over the platform. Elated with victory the free silver crowd is determined to carry through a "broad gauge" platform, while the opposition is quite as determined it shall be a single issue platform, declaring for prohibition alone. Each faction claims a majority, but from yesterday's fight it would seem that the factions are pretty evenly divided.

LYNCHING FRUSTRATED.

The Prisoner Removed From One Jail to Another For Safekeeping.

LIGOXEN, Ind., May 28.—Ed Warren, charged with murdering Charles Badger, and with mortally wounding Ulysses Badger, his brother-in-law, was taken to Goshen for safekeeping, as it was feared that he would be lynched. Early in the evening about 70 masked men marched into Albion, headed by a drum corps, threatening to lynch the prisoner.

Upon hearing of their approach Sheriff Simon spirited Warren away to Goshen. The mob, seeing that their visit was useless, then dispersed. They swore, however, that when Warren was brought back to be tried, that they would take him out and hang him up by his feet and riddle him with bullets.

Stellersville's Second Fire.

SISTERSVILLE, W. Va., May 28.—This place was yesterday visited with a second disastrous fire within a week. The loss will reach \$10,000 with little or no insurance. The following are the losers: Grier & Company, druggists; McCormick & Company, shoers; J. T. Dolan, saloon and poolrooms; MacCabe & Elks, paraphernalia; H. Hollis, saloon and clubrooms; E. Cohen, dry goods; Drs. Marsh & Litcher, office furniture; Hershberger & Company, clothiers. The origin of the fire is unknown.

Gold Reserve.

WASHINGTON, May 28.—The treasury yesterday lost \$1,284,700 in gold coin and bars, of which \$1,250,000 was for export. This leaves the true amount of the reserve \$108,294,278.

HOUSE AND SENATE.
But Very Little Accomplished in Either Branch of Congress.

WASHINGTON, May 28.—The house spent almost the entire day discussing the senate amendment to the general deficiency bill, appropriating \$1,027,000 for the payment of about 700 French spoliation claims, \$548,000 for 325 war claims found to be due under the Bowman act, \$174,000 for the payment of what is known as the Chateaufort claim for the construction of an ironclad steam battery in 1864, and about \$10,000 for Indian supplies furnished in 1873 and 1874.

Chairman Cannon of the appropriations committee seconded by Mr. Sayers, led the fight against the payment of these claims which they charged had been lumped together into one immoderate in order to command enough strength to secure passage. Messrs. Grosvenor (Rep., O.), Mahon (Rep., Pa.), Adams (Rep., Pa.) and Richardson (Dem., Tenn.) advocated the claims which they contended had been found by the court of appeals to be equitable and just. The vote was close, but the friends of the claims carried the day—111 to 97.

The conference report on the sundry civil bill, which left but \$1,086,000 still in dispute, was presented and was still pending when the house adjourned.

Mr. Ken (Pop., Neb.), who has been objecting to all requests for unanimous consent, was forced in order to preserve his record to object to a resolution to direct the secretary of the treasury to rescind the issuance of patents to settlers on the Union Pacific, in which 5,000 of his constituents are interested.

In the Senate.

WASHINGTON, May 28.—The senate defeated the proposition to increase the beer tax 75 cents per barrel, by the vote of 34 to 27. The vote was taken as soon as the filled cheese bill was taken up, the beer tax proposition being submitted as an amendment. With the amendment disposed of the cheese bill was further debated, but not disposed of.

The debate on the bond bill proceeded after 2 o'clock. Mr. Hansbrough of North Dakota and Mr. Daniel of Virginia speaking for, and Mr. Elkins of West Virginia against the bill. Mr. Elkins' remarks were punctuated by sharp and amusing colloquies with Mr. Butler and Mr. Perkins. The speech of Mr. Daniel was notable as an exposition of the free silver attitude of today.

DEATH TO THE FISH.

Drainage in the Oil Regions Polluting the Creeks and Rivers.

ANDERSON, Ind., May 28.—One of the four United States fish commission cars was here yesterday with 60,000 trout, but Captain Pierce, who is in charge, said that none was intended for White river or other rivers in Indiana. He had instructions to stock streams passing Elkhart, Laporte, Hartford City, Union City, Rome City and Bedford, but while at Hartford he learned that the waste from the numerous oil wells was detrimental to fish.

Throughout the gas belt, where the streams are used for drains from factories, and by the several important cities, the fish are growing scarce, either dying or else leaving the waters for streams unaffected. The commission is now experimenting, to ascertain what fish can live in waters where a fish famine is reported.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

Fruit, Fruit.

The Fruit season of 1896 is close at hand and I have perfected arrangements with some of the largest and most successful Fruit growers of the Ohio River hills to handle their entire crop of

Strawberries, Raspberries, Blackberries, Peaches, Etc.

This fruit is grown on the elevated lands, principally in Lewis County, by growers of long experience, and will be much superior to any grown on the low or flat lands. It will be received by express and placed on the market here on the same day it is gathered, and will be furnished to dealers and consumers in first-class condition. Special prices always given to dealers, so as to enable them to sell at same prices I sell to consumers and make fair profits.

My Supply of Vegetables

will also be at all times full and of very best quality, and lowest prices.
A special invitation is extended country people to make my house their headquarters when in our city.
